

Helping you...

Alan McCall from Belmont: "Gerry always listens to what people are saying, and then takes appropriate action. I think we are fortunate to have an MP so active in the Constituency, who is approachable and available when needed."

Rachel Green from North End says: "I needed my passport changing to my married name quickly. Thanks to Gerry, we now have a Passport Office here in Durham. Instead of weeks, it took just four hours!"

Durham City

"Lives are changing for the better here in Durham, and I want to make sure they go on improving. The best way for you to make this happen is to vote Labour"

Gerry Steinberg

A better health service for all – After a twenty-year wait, the Labour Government gave the go ahead for the new general hospital in Durham. With the biggest ever long-term investment, Labour will provide a bigger and better health service for everyone.

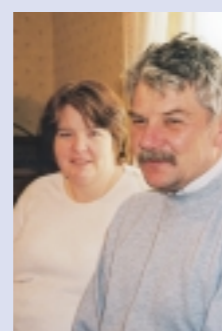

Smaller class sizes – 4909 infants in County Durham are benefiting from being taught in smaller classes. No five, six and seven year olds in Durham are in classes of over thirty this school year.

Healthy economy – With a stable economy, mortgage interest rates have stayed low, and the days of house repossessions and negative equity are gone. Mortgages now average £1200 a year less than under the Tories.

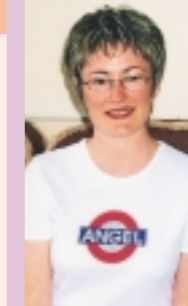

Gerry Steinberg and Labour - working for the people of Durham

Kath and David Hewitt of Brandon, "The working families tax credit made all the difference to our income. It makes working worthwhile and is straightforward and reliable. We don't want the Tories to take it away."

Michael Burns, Gilesgate Moor: "The Labour Government has improved employment rights. There's the minimum wage, entitlement to paid holidays for the first time and part time workers have better rights. We would never have got this with the Tories, and I want Labour to continue its good work."

Geraldine McLoughlin, from Ushaw Moor said, "I'm pleased that Gerry always supports moves to improve animal welfare, both in this country and internationally. As well as calling for action to end unnecessary experiments with animals, he has supported campaigns to protect endangered species like the whale."
